

Degree in 3

The Kingswood Degree in 3 program provides access to Christian-based degrees, at a fraction of the time and cost. Graduate faster and launch your career earlier by earning a bachelor's degree in three years. Instead of only earning a bachelor's degree, you will earn three certificates and an associate degree along the way.

Build a Degree with Certificates

Students earn certificates that stack into associate and bachelor's degrees. Certificates can be completed in less than one year and teach marketable skills that can improve employment options.

Same cost and time

Year 1 Certificate (14-15 credit hours)

Every Degree program starts with a Discipleship Training Block (experiential, community, discipleship)
Followed by Certificate 1
A certificate can be completed in one year or less, and every course builds into a degree.
The certificate-first approach:

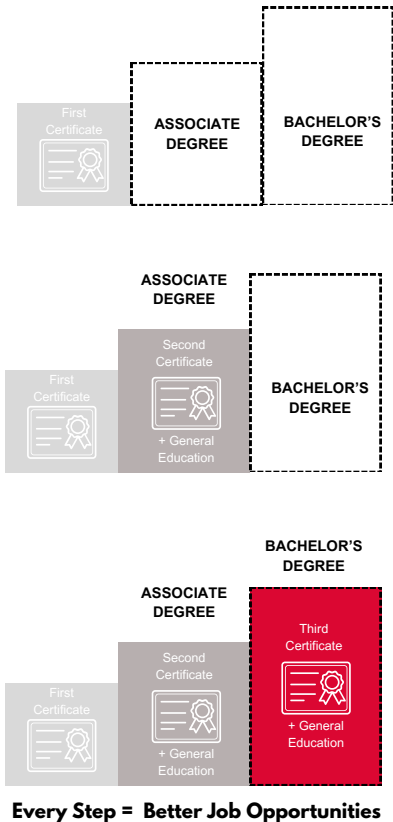

- Allows students to build a customized degree program
- Provides them with marketable skills early on in the degree process
- Increases their chances of completing a BA

Associate Degree (60 credit hours)

Associate degrees are made up of two certificates, plus general and religious education courses. And just like certificates, associate degrees build into a bachelor's degree.

Bachelor's Degree (90-96 credit hours)

Our three-year focused- bachelor's degrees are made up of three certificates, plus general courses. These certificates may help you progress within your career and earn additional income.
In addition, courses taken as part of certificates and an associate degree count toward bachelor's degrees.

Degree Example

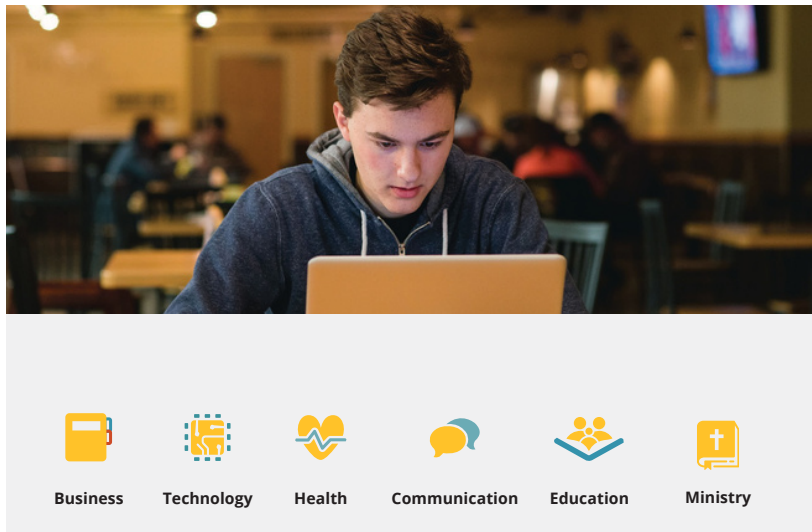

Bachelor's Degree Business Management

The bachelor's degree in business management gives students analytic, marketing, finance, operations, and leadership skills, and prepares them to work in management positions in a variety of business settings.

To earn a bachelor's degree, you will **complete three certificates plus additional General Education requirements:**

Earn a Bachelor's Degree In Three Years

Build a degree with certificates

To build a degree, students select three certificates that stack into an associate *and* a bachelor's degree. **Certificates can be completed in one year or less** and teach marketable job skills that can improve employment faster.

Get a job *way* before graduating

Students who are seeking employment report **making more money after completing their first certificate**. They see an even bigger income boost after completing a bachelor's degree.
